***Control* Readers' Choice Awards** **Phoenix Contact named as preferred supplier in three categories**

Middletown, Pa. – *Control* magazine readers have chosen Phoenix Contact as the preferred supplier in three product categories of the Readers' Choice Awards: Terminal Block, Power Supply, and Signal Conditioner. Phoenix Contact also ranked fourth in the Intrinsic Safety category. This is the 28th year that *Control* has published its Readers' Choice Awards.

Award selections are based upon an unaided recall survey across *Control's* email list. Subscribers from end-user companies who receive a ballot can name up to three suppliers across 80 process control and instrumentation technology categories.

Control magazine serves the automation technology information needs of the classically defined process industries—chemicals, oil and gas, food, paper, plastics, metals, and textiles—as well as power generation and water/wastewater utilities.
