

Revenue Grade Meter

EEM-MA370-MC-REV
Order #: 1821472

Phoenix Contact introduces its first Revenue Grade Meter. The EEM-MA370 series power meter is perfectly designed for billing applications within the commercial, residential and industrial space.

The Measurement Canada certification ensures protection against unauthorized tampering while supporting its Modbus TCP/IP protocol and Ethernet connection enabling seamless integration and visualization of energy data through a web interface or compatible control system.
