## **New System Integrator Partner** **Phoenix Contact partners with Convergence Controls and Engineering**

**Middletown, Pa.** – Phoenix Contact has welcomed Convergence Controls and Engineering, based in Littleton, Colorado, to its System Integrator Partner (SIP) channel. As a member of the SIP program, Convergence Controls and Engineering will have access to the tools and training needed to implement and support Phoenix Contact automation solutions. Phoenix Contact is very selective in choosing control system integration companies based on their technology expertise, and the markets and geographies they serve.

Convergence Controls and Engineering is a system integrator that specializes in creating seamless connections for assets to operate at maximum efficiency regardless of the control platform in various industries.

“Convergence Controls brings extensive expertise in networking, cyber security, and industrial controls with years of experience in Phoenix Contact automation solutions. They have a very talented and forward-thinking group of engineers capable to support your automation project,” said Steve Newcomer, strategic channel manager at Phoenix Contact USA. “We look forward to continued growth and success through our partnership with Convergence and their ability to service our customers.”
