Phoenix Contact named a 2024 Best Workplace for Commuters Central Pennsylvania company is one of 700 organizations recognized from across the U.S.

Middletown, Pa. – Phoenix Contact USA has been named one of the 2024 Best Workplaces for CommutersSM—an honor achieved by providing a robust employee commuter benefits program to their employees, helping reduce traffic congestion, and improve the overall quality of life for those who live and work in the region.

Phoenix Contact is among a select group of workplaces in the United States that have been named a 2024 Best Workplaces for CommutersSM (BWC), which requires its members to provide comprehensive progressive commuter benefits to their employees. To make the BWC List, Phoenix Contact offers employees several commuter benefits, including:

- Telework
- Free on-site parking
- A ride-matching program through commuter services of PA
- Bicycle parking and on-site showers/lockers
- Electric vehicle (EV) charging stations
- Other on-site amenities

“We are excited to include Phoenix Contact as a top employer in the nation for offering remarkable commuter benefits to their employees,” said Julie Bond, Program Manager, Best Workplaces for CommutersSM. “Their leadership not only demonstrates a commitment to supporting their employees, it signals to others their dedication to the environment and to improving the quality of life for our communities as a whole.”

“It’s an honor to be named a Best Workplace for CommutersSM,” said Marian Roldan, senior vice president of human relations at Phoenix Contact. “We view our commuter benefits program as an investment in our employees, and they also help create a more sustainable world. These initiatives give our employees flexibility and empower them to take actions that reduce their own carbon footprints.”
