

Sample service

Best practice for device manufacturers

Best practice for device manufacturers

You have got the design-in idea, we provide the solution. Be it PCB terminal blocks, PCB connectors, data or circular connectors – Phoenix Contact offers more than 3,000 sample articles completely free of charge. It only takes a few clicks and keystrokes to order your sample online; orders placed before 2:00 p.m. will be automatically completed for shipment on the same day.

How to order your personal sample in just five steps

Go to product details page

Go to the product details page of the product you need. If a sample of the product is available for direct shipment, you will find a notice about the order form in the upper right corner of the page.

Qty	Delivery	Quantity
1	8888 0000 - MKD5 10 HW 6-ZB-10,14	10 pc

Fill in the order form

The order form has only a few input fields for information that we need for successful shipment. Please fill in these fields completely to enable automatic shipment.

Your advantages

- ✓ Convenient ordering: Online requesting without any need for access or customer information
- ✓ Free shipment: Free-of-charge direct shipment
- ✓ Prompt dispatch: Orders placed before 2:00 p.m. are ready for shipment on the same day
- ✓ Comprehensive support: Order confirmation and direct contact to the local sales department

Submit your order

When you have completed the required fields, simply submit your order with one click.

Confirmation of your order

As soon as we receive your order, you will get an e-mail with an electronic confirmation of your order in return.

Delivery of your sample

If we receive your order before 2:00 p.m. on a work day, the product will be dispatched on the same day. Our efficient parcel service usually delivers ordered samples within 24 hours.

Open communication with customers and partners worldwide

Phoenix Contact is a global market leader based in Germany. We are known for producing forward-thinking products and solutions for the comprehensive electrification, networking, and automation of all sectors of the economy and infrastructure.
