## **clipx WIRE assist improves efficiency** **Worker assistance system for efficient and flexible wire processing**

**Middletown, Pa.** – Control panel builders can improve wire processing efficiency with the new clipx WIRE assist system from Phoenix Contact. The customizable system includes a software program and an optional, adjustable workbench with a variety of accessories.

The clipx WIRE assist software increases wire processing productivity and improves consistency. The software controls the wire cutting and labeling devices, guiding the user through clear onscreen instructions on a laptop or touchscreen. The program can be used with the CUTFOX 10 wire cutting machine, the THERMOMARK ROLL series printers, the CF3000 wire stripper and ferrule crimper, and the CF500 ferrule and lugs crimping machine.

The optional clipx WIRE assist workbench is an ergonomic and efficient workstation that keeps everything a panel builder needs within reach. The technician can quickly adjust the tabletop's height and easily maneuver the mounted machines. The workbench also features wire spool rods or mounting shelves for quick access to most wires needed to complete the task at hand.

The clipx WIRE assist system is customizable, making it suitable as a standard shop bench or a flexible workbench. Learn more at [www.phoenixcontact.com/clipxwireassist](http://www.phoenixcontact.com/clipxwireassist).

### **About Phoenix Contact**

In 2023, Phoenix Contact is celebrating 100 years of passion for technology and innovation. Since 1923, Phoenix Contact has worked with customers and partners to develop innovative products and solutions in the fields of energy, infrastructure, process, and factory automation. The German-based company has a worldwide network reaching across more than 100 countries with over 22,000 employees. As a family-owned business, Phoenix Contact acts responsibly today to build a better world for future generations. Phoenix Contact USA has been recognized as a "Best Place to Work in Pennsylvania," a WELCOA Well Workplace Gold Winner, and a four-time recipient of the Governor's Award for Environmental Excellence.
