# Axioline Smart Elements

Axioline Smart Elements

MORE SPACE FOR  
YOUR CREATIVITY

Axioline Smart Elements

## New compact and pluggable I/Os

“ Axioline Smart Elements are new I/Os which are extremely compact, pluggable and system-independent modules without bus communication. Together with a backplane system they form a complete I/O. ”

Axioline SE Smart Elements

## **Tightes of space**

Axioline Smart Elements

## Automate smart and economically

### READY FOR AUTOMATION

- Initial portfolio with all major I/Os
- All necessary functionalities incl. Safety and IO-Link

DI

SDI

AI

IO-Link

INC

DO

SDO

AO

RS485

CNT

## Axioline Smart Elements

# Compact and flexible

### COMPACT

8 or 16 connection  
points on a small  
footprint of  
15 mm x 62 mm

### SYSTEM- INDEPENDENT

Due to the system-  
independent  
interface the  
elements can be  
used universally with  
specific backplanes

### EASY HANDLING

Push-in technology  
and the toolfree  
unlock-mechanism  
reduce installation  
efforts

### FAST START-UP

One function per  
module and few  
parameters to be set  
guarantee fast  
commissioning

Axioline Smart Elements

## Just like an Axioline F I/O

PLUGGABLE INTO AXIOLINE F BACKPLANES

*Without any rules* - plug the Axioline Smart Elements into any position in the Axioline F backplane

Axioline SE Smart Elements

## **Efficient and Smart Handling**

## Axioline Smart Elements

# Portfolio

ANALOG INPUT		ANALOG OUTPUT		DIGITAL INPUT		DIGITAL OUTPUT		FUNCTION MODULES		SAFETY MODULES		SYSTEM MODULES	
	AI4 I		AO4 I		DI16		DO16		IOL4		PSDI		SC-A
	AI4 U		AO4 U						CNT1		PSDO

Axioline Smart Elements

## Compact and flexible I/O solution

Up to  
**32**  
I/O channels  
in **ONE** column

### EXTREMELY COMPACT

Less space required on the DIN rail  
enables compact control cabinet  
solutions

Axioline Smart Elements

## Compact and flexible I/O solution

**TWO**  
I/O functions  
in **ONE** column  
freely mixable

### YOU HAVE THE CHOICE

TWO different I/O functions freely selectable over a width of 15 mm enable a flexible and needs-based I/O concept.

Axioline Smart Elements

## Compact and flexible I/O solution

### MORE FUNCTION, SAME WIDTH

Simple functional expansion of the I/O station by exchanging the slot cover elements with I/O elements – without increase in width.

Axioline Smart Elements

## Full compatibility

All Axiocontrols  
All bus couplers

All Axioline F I/Os

Choose out of a portfolio of more than 80 I/Os, bus couplers and controls

# Axioline Smart Elements & PLCnext Controls **IoT ready**

## OPEN and FUTURE PROOF

Axioline Smart Elements are the optimal supplement for the PLCnext Controls .

PLCnext Technology   
Designed by PHOENIX CONTACT

## Axioline Smart Elements

# I/Os as part of the modular automation system

CONTROLS &  
BUS COUPLERS

WIDE RANGE  
OF I/Os

- ✓ Scalable automation system for simple to complex assignments
- ✓ Large selection of modules according to the modular system principle
- ✓ Optimal complement to PLCnext Controls
- ✓ All components are part of the COMPLETE line system

PLCnext Technology<sup>®</sup>  
Designed by PHOENIX CONTACT

COMPLETE line

Axioline SE Smart Elements

## **Space optimized Automation Systems**

## Axioline Smart Elements

# Properties

### Marking

Adhesive label or marker

### Release mechanism

Mounting: locking mechanism in slot

Removal: release and pull-out aid

### Smart Element interface

- Communications power  $U_{SE}$
- 24 V DC I/O supply  $U_P$
- Communication with Smart Element slot

### I/O connection

8 or 16 alternately arranged terminal points with Push-in connection technology

### Diagnostic and status indicators

- Two redundant red error LEDs
- Status LEDs (depending on the version)

### Dimensions

62 mm x 15 mm x 62 mm (L x W x H)

## Axioline Smart Elements

# Conductor cross sections

- Without using the spring lever to insert the conductor

Conductor	Cross section
Rigid	0.5 mm <sup>2</sup> .... 1.5 mm <sup>2</sup> (AWG 20 ... 16)
Flexible with ferrule without insulating collar (A ...) or with insulating collar (AI ...)	

Flexible cables without ferrules are only suitable for Push-in connection technology **when using the spring lever**.

- When using the spring lever to insert the conductor

Conductor	Cross section
Rigid	0.25 mm <sup>2</sup> .... 1.5 mm <sup>2</sup> (AWG 24 ... 16)
Flexible with ferrule without insulating collar (A ...) or with insulating collar (AI ...)	
Flexible without ferrule	

- Stripping lengths and ferrule lengths

Cross section	Length
0.25 mm <sup>2</sup> .... 1.5 mm <sup>2</sup> (AWG 24 ... 16)	8 mm

## Axioline Smart Elements

# Mounting and removal

- Mounting the Smart Element

**A:** Inserting the Smart Element in the Smart Element slot

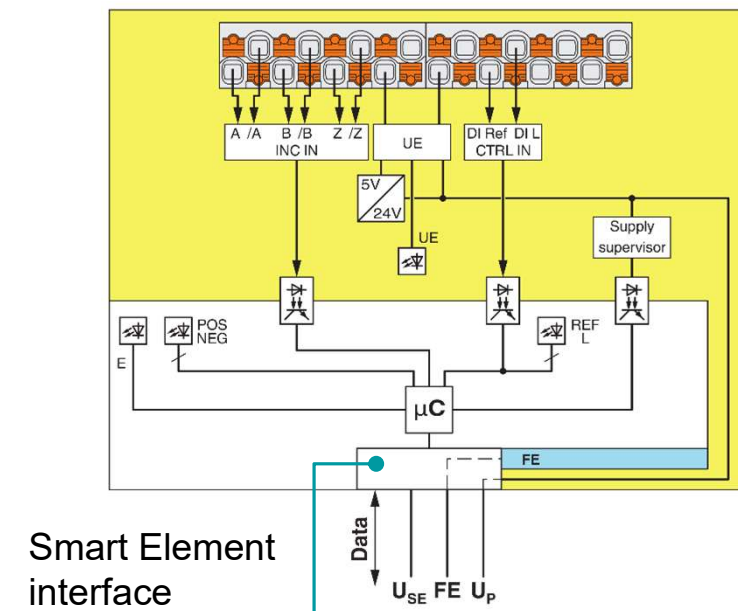

**B:** Locking the Smart Element in place

- Removing the Smart Element

**A:** Releasing the Smart Element

**B:** Removing the Smart Element

# Supply concept

- The Smart Element is supplied with the following via the Smart Element interface:
  - Communications power  $U_{SE}$
  - 24 V DC I/O supply  $U_P$  with max. 6 A per Smart Element

## Axioline Smart Elements

# Diagnostic and status indicators

- Status LEDs
  - Up to 16 status LEDs
  - Number and assignment depends on the I/O function
- E LED
  - Off No error
  - Flashing (0.5 Hz) Smart Element faulty
  - Flashing (4 Hz) Communication error
  - On I/O error

# Axioline Smart Elements

## Axioline Smart Elements

# Marking

- The following can be included on the release mechanism (1) for marking purposes:
  - Adhesive label (2)
    - SK 5,0 WH:REE (Order No. 0805221)
    - MM-TML (EX4,2)R C1 TR/BK (Order No. 0803979)
  - Snap-on marker (3)
    - UCT6M-TM 5 (Order No. 0830756)
    - UM6M-TM (5X12) (Order No. 0830928)

Axioline F backplane

## Axioline F backplane

# Properties

### Marking

Using adhesive label or marking label

### Diagnostic and status LEDs

- Power supply ( $U_P$ )
- Local bus diagnostics (D1 ... D6)

### Axioline Smart Element slots

4 or 6 slots for Smart Elements

AXL F BP SE4: 1088135

AXL F BP SE6: 1088136

### Feed-in (Push-in Technology)

24 V DC I/O supply  $U_P$

Up to 16 A

0.5 mm<sup>2</sup> ... 2.5 mm<sup>2</sup>

### Axioline F local bus

Can be combined with all Axioline F controllers and bus couplers

### Base latch

To release the backplane from the DIN rail

Axioline F backplane

## Mounting

**A:** Mounting the bus base module  
(for bus coupler or AXL F module)

**B:** Snapping on and aligning the  
backplanes by pushing them together

**C:** Mounting the AXL F bus coupler or  
the AXL F module

→ With step C, the backplane is locked in  
place with the AXL F module

## Axioline F backplane

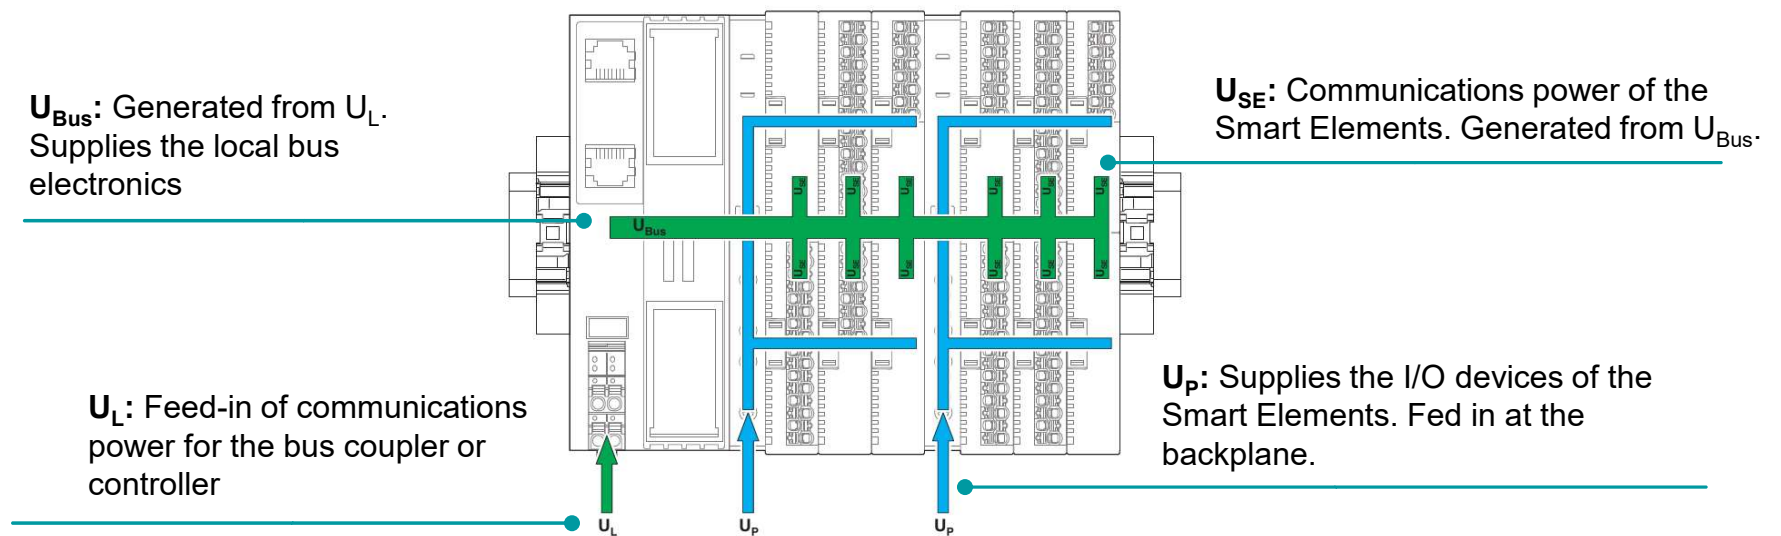

# Removal

- A1,2:** Removing the bus coupler  
(or the AXL F module)
- B1,2:** Disengaging (pushing apart) the  
backplanes
- B3,4:** Releasing and removing the  
backplanes

## Axioline F backplane

# Supply concept

# Axioline F backplane

## Marking

## Axioline F backplane

# Marking

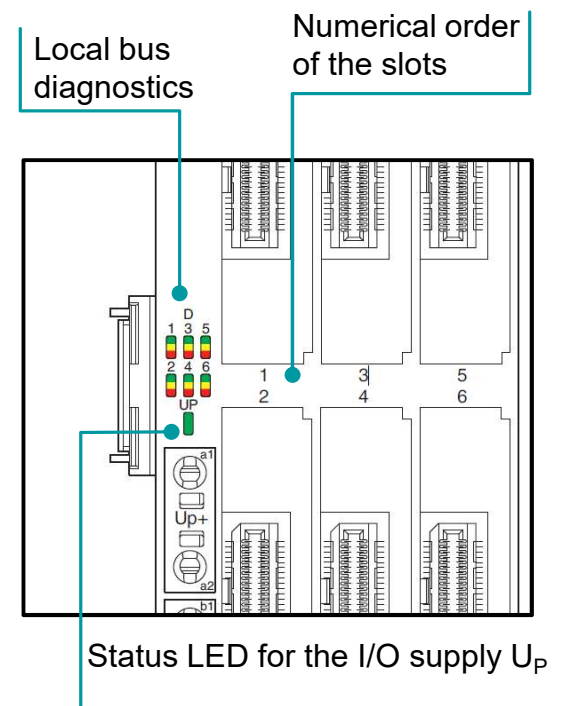

- The following can be included on the backplane (1) for marking purposes:
  - Adhesive label
    - SK 5,0 WH:REE (Order No. 0805221)
    - MM-TML (EX4,2)R C1 TR/BK (Order No. 0803979)
  - Snap-on marker
    - UCT6M-TM 5 (Order No. 0830756)
    - UM6M-TM (5X12) (Order No. 0830928)

## Axioline F backplane

# Diagnostic and status indicators

D 1 ... 6	Status of the local bus and I/O devices
Green on	<ul style="list-style-type: none"> <li>- Controller is providing valid data</li> <li>- No error</li> </ul>
Flashing green	<ul style="list-style-type: none"> <li>- Internal communication OK</li> <li>- Controller is not providing valid data</li> </ul>
Flashing yellow/red	- Smart Element(s) before the slot flashing yellow/red is no longer connected to the slot
Flashing yellow	- Smart Element(s) before the slot flashing yellow/red <u>after power-up</u> is not connected to the slot
Red on	- Smart Element of next slot is not plugged in
Red on (all)	- At least one slot has an unconfigured Smart Element or an AXL F module

## Axioline Smart Elements in the AXL F system

Axioline Smart Elements in the AXL F system

## Backplane dimensions incl. Smart Elements

Axioline Smart Elements in the AXL F system

## Shielding concept

- Axioline F shielding set can be used (AXL F AXL SHIELD SET – 2700518)
- Holder cannot be installed between backplanes

Axioline Smart Elements in the AXL F system

## Synergy of AXL F and AXL SE

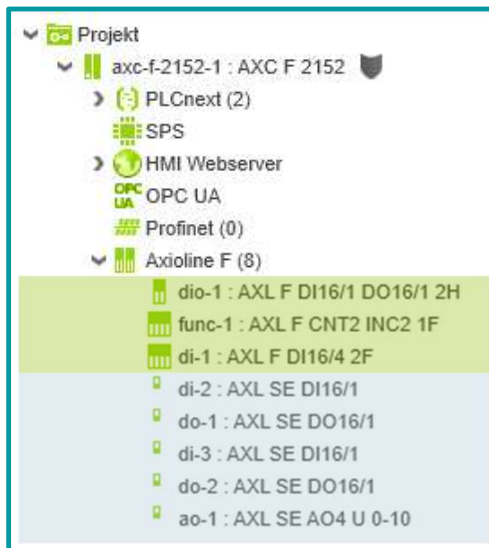

- Axioline F and Axioline Smart Elements can be combined
- Functions can be combined as required

## Axioline Smart Elements in the AXL F system

# System image

- Plugging a Smart Element into an AXL F backplane transforms the Smart Element into an Axioline F device
- Handling and using the Smart Element like an AXL F module
- Mixed stations are also possible
- Backplanes do not need to be configured
- An AXL SE SC-A (slot cover) must be placed on an unused slot

## Axioline Smart Elements in the AXL F system

# Diagnostics concept

- Integration of Axioline Smart Elements in Axioline F system diagnostics
- Error codes
- Plain text diagnostics (system-dependent)
- HW and FW version can be read
- Additional information available, such as equipment ID, location, etc.

No.	Product Name	Product Text

## Axioline Smart Elements in the AXL F system

# AXL F and AXL SE

The AXL SE portfolio does not include SSI and UTH at present. The AXL SE station can be extended with AXL F modules.

Axioline Smart Elements in the AXL F system

## Project+ machine options

Slot covers can be used to reserve slots in an I/O station. This means that depending on the machine design, different I/O station versions can be created without changing the physical and logical position of the other Smart Elements.

# Analog input

AXL SE AI4 I 4-20  
Order No. 1088062

- 4 analog inputs per Smart Element
- Measuring range: 4 mA ... 20 mA or 0 V ... 10 V
- Resolution: 12 bits
- 2-conductor connection technology (single-ended)
- No parameterization required

AXL SE AI4 U 0-10  
Order No. 1088104

Axioline Smart Elements portfolio

## Analog input

AXL SE RTD4 PT100  
Order No. 1088106

- 4 analog inputs to record from Pt 100 temperature sensors
- Resolution: 16 bits
- 3-conductor connection technology
- No parameterization required

Axioline Smart Elements portfolio

## Analog output

AXL SE AO4 I 4-20  
Order No. 1088123

- 4 analog outputs per Smart Element
- Output range: 4 mA ... 20 mA or 0 V ... 10 V
- Resolution: 12 bits
- 2-conductor connection technology (single-ended)
- No parameterization required

AXL SE AO4 U 0-10  
Order No. 1088126

Axioline Smart Elements portfolio

## Digital input

AXL SE DI16/1  
Order No. 1088127

- 16 digital inputs
- 1-conductor connection technology

Axioline Smart Elements portfolio

## Digital output

AXL SE DO16/1  
Order No. 1088129

- 16 digital outputs
- 500 mA
- 1-conductor connection technology

## Axioline Smart Elements portfolio

# Functions

AXL SE IOL4  
Order No. 1088132

- IO-Link master
- 4 IO-Link A ports (spec. 1.1.2)

AXL SE CNT1  
Order No. 1088131

- Counter
- 24 V counter input (type 1)
- Input frequency: 0 kHz ... 150 kHz

## Axioline Smart Elements portfolio

# Functions

AXL SE INC1 SYM  
Order No. 1088130

- 1 symmetrical incremental encoder input
- Electrical encoder monitoring
- Z signal with 24 V/5 V supply

AXL SE RS485  
Order No. 1088128

- RS-485
- Half duplex transmission
- 4 kB receive buffer
- 1 kB send buffer

## Axioline Smart Elements portfolio

# Safety

AXL SE PSDI8/3  
Order No. 1079241

- 8 safe inputs, single-channel
- 3-conductor connection
- Addressing via lateral DIP switches

AXL SE PSDO4/2  
Order No. 1079231

- 4 safe outputs, single-channel
- 2 A per output
- 6 A maximum total current
- 2-conductor connection

## Axioline SE Smart Elements

# Modules and Safety Modules

## Axioline Smart Elements portfolio

# Safety

- Addressing via lateral DIP switches
- AXL SE PSDO4/2 2A
  - 4 safe outputs, single-channel
  - 2 A per output
  - 6 A maximum total current
  - 2-conductor connection
- AXL SE PSDI8/3
  - 8 safe inputs, single-channel
  - 3-conductor connection

Axioline Smart Elements portfolio

# System

AXL SE SC-A  
Order No. 1088134

- Dummy module for empty backplane slots
- Protects an unused Smart Element slot

Axioline Smart Elements portfolio

## Backplane

AXL F BP SE4  
Order No. 1088135

- Backplane modules for operating the Smart Elements within an AXL F station

- 4 slots for Axioline Smart Elements

AXL F BP SE6  
Order No. 1088136

- 6 slots for Axioline Smart Elements

## Combination of I/O Axioline System

Axioline SE Smart Elements

## **Future proof**

## Axioline Smart Elements

# Your advantages at a glance

- ✓ Axioline Smart Elements are **FREELY** pluggable
- ✓ Very **COMPACT** I/O solution
- ✓ **TWO** different I/O functions freely selectable over a width of 15 mm
- ✓ Compatible with **ALL** Axiocontrol, Axioline F bus couplers, and I/O modules
- ✓ Future proof in **connectivity**, digitalization, cloud, IIoT
- ✓ **Improvement in** Production of Cabinets
- ✓ Protection of I/O **Installed Base** with high quality products
