The THERMOMARK GO and GO.K are portable printers that are great for labeling jobs in maintenance, server rooms, around the shop, and in the field. Both are powered with a rechargeable Li-ION battery or with 6 AA batteries. Label cartridges contain both the label and the ink ribbon and can be easily changed for shrink sleeves, self-laminating wire wraps, and indoor/outdoor vinyl tape.

- THERMOMARK GO.K is a handheld printer with a built-in keyboard
- THERMOMARK GO uses our custom MARKING system app with your smart device to design and print labels in both continuous and die-cut formats

For more information, visit www.phoenixcontact.com/us-go
