

# Phoenix Contact USA Media Kit

---

Phoenix Contact USA, founded in 1981, is advancing the industrial landscape with solutions that connect, communicate, and automate. More than 1,000 employees, including a nationwide network of friendly and knowledgeable sales professionals, help solve application challenges in electrification, networking, and automation. Our U.S.-based manufacturing and logistics facilities support our customers with faster, more personalized service.

Phoenix Contact is a global market leader based in Germany. Since 1923, we have created products to connect, distribute, and control power and data flows. Our products are found in nearly all industrial settings, with a strong focus in the energy, infrastructure, process, and factory automation markets.

Together with our customers, we are creating a sustainable world based on our passion for technology and innovation.

## Purpose Statement

Together, we are creating a sustainable world based on our passion for technology and innovation.

# Sustainability at Phoenix Contact

Sustainability and responsibility guide every action we take at Phoenix Contact – from product development and manufacturing, to distribution and customer partnerships. Phoenix Contact walks the talk through recycling, clean energy use, and many other initiatives.
