How to download and install PROJECT complete marking software

Once the zipped folder is downloaded, you will need to extract it so you can run the installation wizard. Navigate to your **Downloads** folder, locate the zipped folder there, and right-click on it. Then click **Extract All**.

Click on the **"Browse"** button.

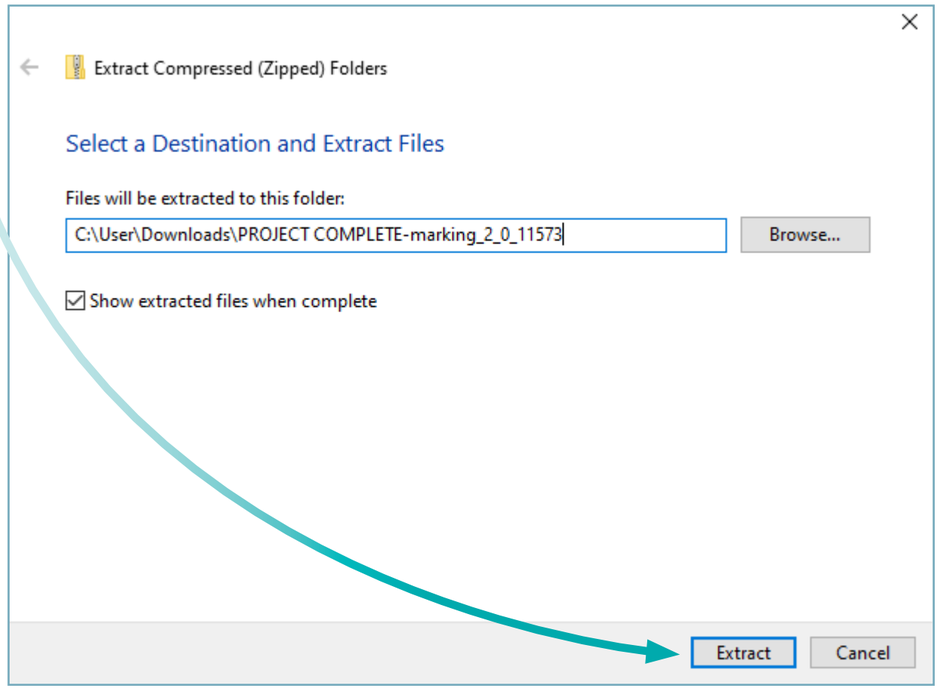

Select your extraction destination as **Desktop,** then click on the the **"Select Folder"** button.

How to download and install PROJECT complete marking software

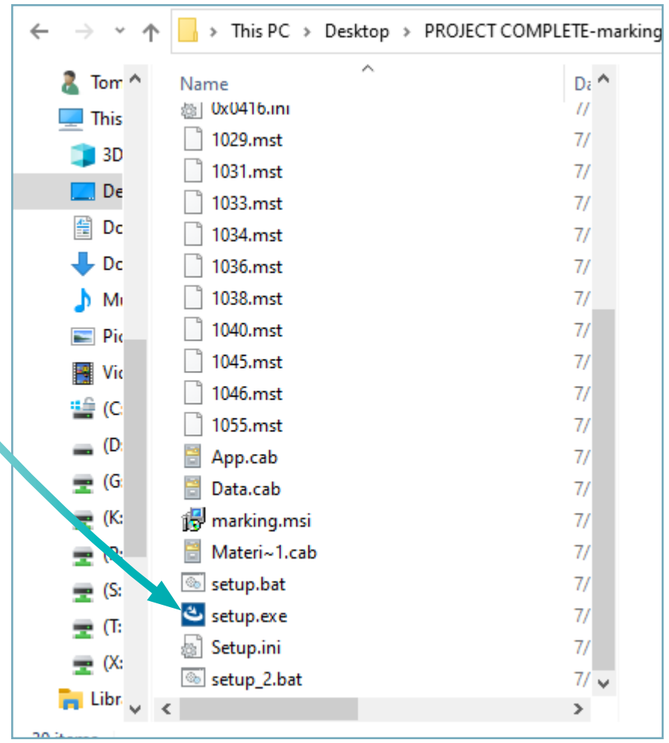

Click on the **"Extract"** button.

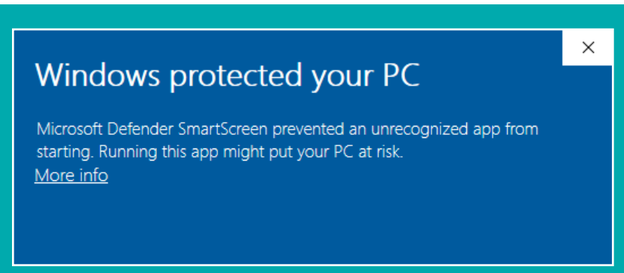

Once the extraction is complete, go to your extraction location. If you extracted it to your **Desktop**, you should see a folder like the one on the right.

Double-click on the folder and scroll down to the **setup.exe** file down toward the bottom. Double-click on the file to start the installation wizard.

If this window pops up, click on **"More info"** and click on **"Run anyway."**

If you have any trouble with the installation wizard, please call Phoenix Contact **Technical Service** at **800-322-3225**. Once the installation is complete, open the software. If you don't see the software startup icon on your Desktop, you can drag it from your Apps list on the left side of the screen. Click on the **"Start"** button, which will bring up your list of apps. Scroll down to **"Phoenix Contact,"** click on the down arrow to the right, grab the Marking selection from the dropdown, and drag it to your Desktop. You can now open the software by clicking on the dropdown described above, or you can double-click on the icon that is now on your Desktop.

How to download and install PROJECT complete marking software

Keep in mind that the software you downloaded is the demo version with limited functionality. When you open PROJECT complete marking software for the first time, you will need to convert it to the full version. Click on File/Options/License to get to the window on the right.

You must enter your validation number, company name, and email address. Once you've done that, the **"Upgrade"** button will turn solid so you can click on it. Then the software will be converted to the full version. If you forgot to request your validation key as described earlier, you can click on the **"Internet registration"** link highlighted on the right which will take you to the appropriate window for registering online.

*Note, if you have registered with the previous version of CLIP PROJECT, you will need to re-register to get a new license for PROJECT complete software.
